Indianapolis Gate Update

Dear Residents:

The construction timeline for Indianapolis Gate Replacement project has changed due to current industry-wide labor shortages, as well as expected delays due to upcoming holidays. The new closure dates (after holidays) will begin effective January 14, 2022 through February 15, 2022. The Indianapolis gate entrance, exit, and pedestrian gates will be closed for the entire construction period.

There is expected to be increased traffic at the Atlanta Gate, and Management will work with Security to move traffic through as quickly as possible to minimize inconveniences.

As we welcome the new year, we are all looking forward to our new Indianapolis gates and fencing!

Thank you,

Huntington Landmark Board of Directors
