

Sally Coon

I'm excited to be a candidate for the Huntington Landmark Board of Directors and would be honored to serve. I have owned and lived here for over five years and after retiring in 2018, have had time to enjoy much that our community has to offer.

It takes a strong team to continue building upon the accomplishments of past Boards to maintain and improve our property values as well as the quality of life in Landmark.

What qualifies me to be on the Board of Directors:

- Serving on the Finance Advisory Committee for over three years,
- Have a strong work ethic, willing to do the right thing, even if it's not the easiest,
- Strong management background working as a team, and responsibly managing multi-million-dollar budgets
- Caring and giving back by being a volunteer for Alzheimer's Family Services Day Care Center and fostering rescue cats, kittens, and dogs for a local non-profit. I am also a building steward In Huntington Landmark.

Professional Qualifications:

- BA in Marketing, MBA in Finance
- Nearly 25 years as an executive in a privately-owned company that sells and supports multiple franchise brands such as Sir Speedy Printing and TeamLogic IT. As an executive I was involved in overall operations of this multi-million-dollar organization, training new franchisees to open their businesses, managing a team of regional franchise business consultants, and acting as a business consultant/advisor myself to assist franchisees in growing their businesses profitably.

I will:

- strive to always exercise good judgement,
- make time to listen and study all sides of an issue before making my decision,
- do my best to ensure the Board of Directors is making fiscally responsible decisions that are best for the community overall as we continue to build our reserve fund and operate within budget each year,
- make myself available to listen to all residents of Huntington Landmark,
- work diligently to make sure that Huntington Landmark continues to be the premier senior living community in Orange County.

I will appreciate your votes when you receive your ballot in early October. In the meantime, I welcome hearing from you.
